

Energy Management Obligations in 2020

In 2020 NORA met its Public Body Energy Management obligations set out in [S.I. No. 426/2014 - European Union\(Energy Efficiency\) Regulations 2014](#)

NORA continues to pursue its energy saving targets through participation in SEAI's system for Energy Monitoring and Reporting.

Overview of Energy Usage in 2020

NORA's main energy use in 2020 was as follows:

NORA's office buildings – 15.9 MWh were consumed at a carbon emission total of 4,675 kg.

Ringsend terminal – 17.8 MWh were consumed at a carbon emission of 5,224 kg.

Tarbert terminal – 56.3 MWh were consumed with a total carbon emissions of 16,559 kg.

Poolbeg terminal – 29.4 MWh were consumed with a total carbon emission of 8,647 kg.

Energy Management Actions in 2020

- NORA relocated its head office to a LEED accredited designed building with a B1 building energy rating (BER).
- NORA's Energy Performance was 49.6% better than 2020 Target.
- Onsite Energy generated from renewable sources (Tarbert Solar Panels) in 2020 was 8.9 MWh.
- Ongoing commitment to SEAI energy M&R programme and continued implementation of NORA's Energy Management Plan.
